

Beutter is a supplier of fine mechanical components. Below you can find a series of statements which we have compiled to give an overview of the company:

- Beutter was founded in 1909, and is located to the south of Stuttgart, very close to the A81 motorway in the German state of Baden-Württemberg.
- We have some 120 employees. Of our production staff, over 90 % are skilled workers.
- Our main areas of activity in terms of production are individual components and assemblies involving a high depth of production.
- We have the capability to perform, in-house, all machining processes, while for special processes and surface and heat treatment processes we use competent third-party suppliers.
- For us, the ideal is small- to medium-sized production runs with a lot size of between 50 and 2,000 pieces.
- We process all machinable materials, and are particularly experienced in processing high-alloyed steels, titanium and special materials.
- Our main fields of activity are: Medical technology, aeronautics, hydraulics, military engineering, mechanical engineering and measuring equipment technology.
- Our quality management system is certified according to DIN EN ISO 9001:2008, DIN EN 13485 (medical products) and DIN EN ISO 9100 (aeronautics).
- We can receive your data via our CAD system „SolidWorks“.

We will be glad to hear from you. The people to contact are listed below:

Management:

Dr. Ing. Wolf-Dieter Kiessling

Tel: +49 7428 / 933-102

Fax: +49 7428 / 933-296

e-mail: dr.kiessling@beutter.de

Sales:

Dipl. Wirt.-Ing. (FH) Andreas Strobel

Tel: +49 7428 / 933-130

Fax: +49 7428 / 933-290

e-mail: andreas.strobel@beutter.de

Engineering:

Dipl. Ing. (BA) Jochen Herre

Tel: + 49 7428 / 933-180

Fax: +49 7428 / 933-290

e-mail: jochen.herre@beutter.de

Quality Engineering:

Yvonne Kipp

Tel: +49 7428 / 933-190

Fax: +49 7428 / 933-294

e-mail: yvonne.kipp@beutter.de
